# TalkSwitch® analog telephones

## Classic simplicity and reliability

Looking for phones with classic simplicity and reliability? TalkSwitch® analog phones are the answer. Built for business with all of the features you expect, these phones are tailor-made to work seamlessly with TalkSwitch systems. And because they're analog, they function the way phones always have; you plug them in, and they work. Even in the event of a power failure.

## Phone Freedom

TalkSwitch never ties you down. In addition to our analog phones, we offer a complete line of IP phones. TalkSwitch systems also work with standard analog and selected IP phones from other manufacturers, so you can get the phones you want or save money by using your existing phones.

## TS-600

The premium TalkSwitch analog phone.

- Huge, adjustable display
- Menu-driven interface
- Superior speakerphone
- 6 softkeys for feature access
- Combined power/
  telephone cord
- Dedicated headset button

## TS-200

Distinct style, tailor-made for TalkSwitch.

- Ring-once option
- 11 one-touch feature keys
- 4 softkeys for feature access
- 10 programmable/
  speed dial buttons

These products are Hearing Aid Compatible and Volume Control is in compliance with FCC Part 68 and the Hearing Aid Compatibility Act. Available in North America. Requires a TalkSwitch extension port configured for analog phones. Will not work with extensions configured for IP phones.
